SHADOWFANG KEEP

Boss	Meta	V	Detail	Achievement	Notes
NORMAL					
Lord Godfrey			Defeat Lord Godfrey	Shadowfang Keep	
			Complete the achievement Shadowfang Keep	Classic Dungeonmaster	
HEROIC					
Baron Ashbury	٥		Defeat Baron Ashbury without letting him heal with Stay of Execution.	Pardon Denied	 Asphyxiate (cast every 40 -45 seconds) reduces the group to 1 HP and Stay of Execution, cast immediately afterwards, is intended to heal the group back up Ashbury has ~4 million hp, therefore group dps > 100,000 is required to kill him before Asphyxiate < 100,000 dps: interrupt Stay of Execution and insta heal the tank after Asphyxiate
Commander Springvale	0		Defeat Commander Springvale without allowing him to receive Unholy Empowerment.	To the Ground!	 The achievement detail is a bit misleading as Springvale can receive Unholy Empowerment by himself To complete this you just need to prevent the adds from casting Unholy Power. 3 stacks = Unholy Empowerment Kiting him out of the room now results in Separation Anxiety, increasing his damage by 200% Interrupt the adds or aoe them very quickly Groups with good dps should be able to easily despatch his initial two adds and kill him before he spawns more
Lord Godfrey			Defeat Lord Godfrey	Heroic: Shadowfang Keep	
	0		Defeat 12 Bloodthirsty Ghouls with Pistol Barrage and then defeat Lord Godfrey	Bullet Time	 ranged/heals stack on the stairs at the entrance to the room tank Godfrey at the bottom of his platform's stairs facing the ranged/ heals group tank steps to the side just after the adds spawn and dps remain on the boss adds should aggro onto the healer and force them up the stairs Pistol Barrage starts just after the adds spawn and should take out the adds on their journey to the healer Rinse and repeat as many times as needed
			Complete the achievement Heroic: Shadowfang Keep	Cataclysm Dungeon Hero	
			Complete the achievement Heroic: Shadowfang Keep	Defender of a Shattered World
